COMPANY OVERVIEW

About PETRO SHORE

PETRO SHORE TRADING CO L.L.C. is a strategic integrator and program executor for large-scale industrial and energy initiatives — delivering turnkey EPC and EPC+F solutions through seamless convergence of engineering excellence, disciplined project management, and project-based financing.

Offices in China, UAE, Turkey, HONG KONG and Germany. Official strategic partner of reputable well-known companies (i.e.: CCCC – China)

MISSION

Reducing business risks and facilitating projects for the benefit of all stakeholders.

VISION

Leading company in competitive opportunities in oil, gas and energy internationally.

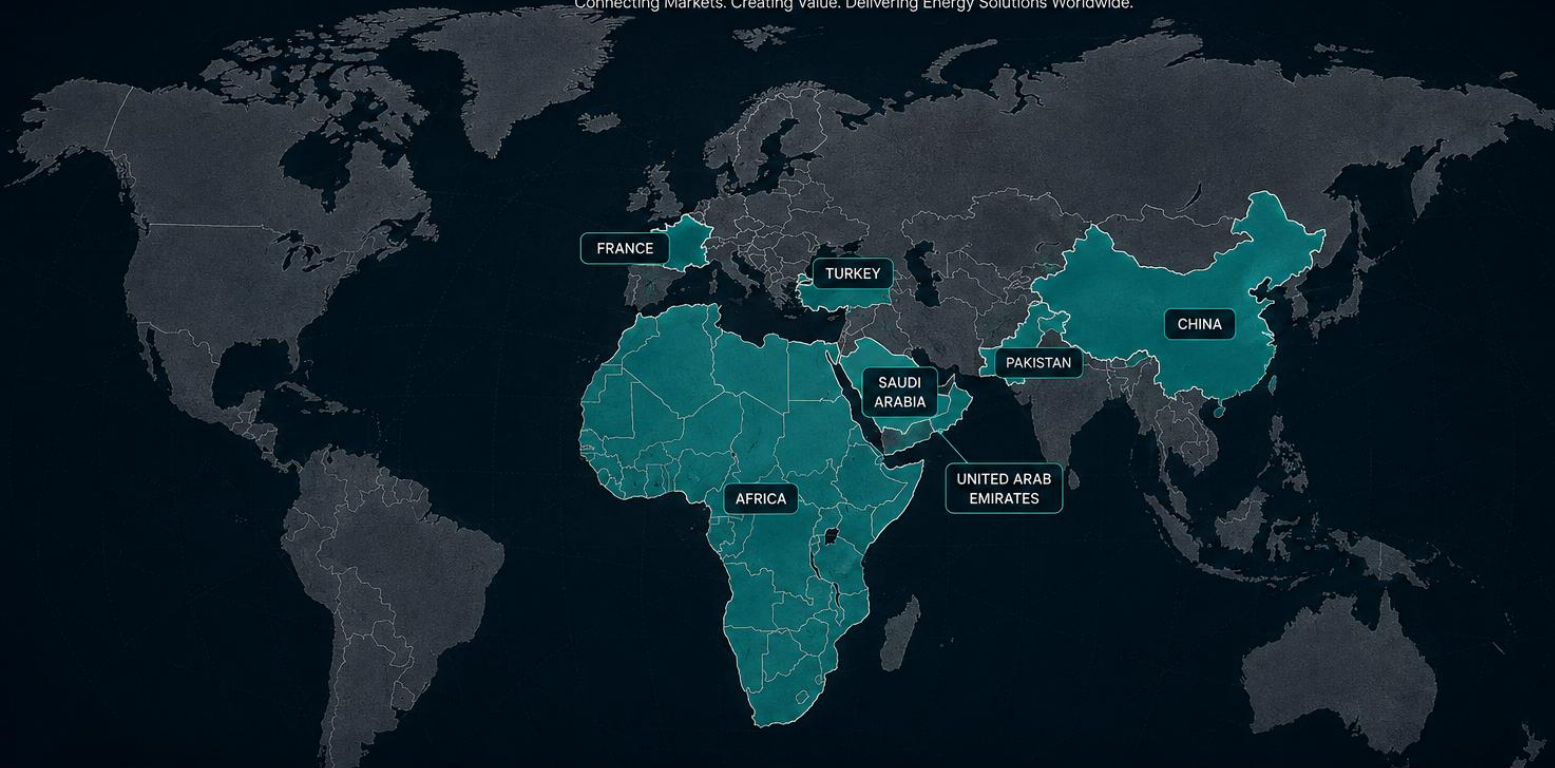

PETRO SHORE

GLOBAL COOPERATION NETWORK

Connecting Markets. Creating Value. Delivering Energy Solutions Worldwide.

GLOBAL REACH

Strong presence in key international markets

STRATEGIC PARTNERSHIPS

Building trust through long-term collaboration

ENERGY SOLUTIONS

Providing reliable and innovative energy services

SAFETY & QUALITY

Committed to the highest HSE and quality standards

SUSTAINABLE GROWTH

Creating value today for a better tomorrow

CORE VALUES

Pragmatism & Agility

Field-tested solutions driving rapid, responsive decision-making.

Stakeholder Commitment

Client and partner outcomes at the centre of every program.

Quality & Precision

Rigorous technical standards applied across all delivery phases.

Collaboration & Synergy

Joint engineering platforms with CCCC to multiply capability.

Honesty & Respect

Transparent, accountable business conduct in all markets.

Safety & Health

HSE embedded as a core control layer, not a compliance afterthought.

PETRO SHORE

RENEWABLE ENERGY

Renewable Energy

5,000 MW Solar + 5,000 MW Wind capacity
in development

5,000 MW

Solar Capacity

5,000 MW

Wind Capacity

+ Waste Management Program — Agreement Signed

Partnership

Solar Program

5,000 MW photovoltaic capacity.

Wind Program

5,000 MW wind farm capacity targeting execution high-potential wind corridors.

Waste Management

Integrated waste-to-energy and management solutions — MOU ref: PGM-2026-3769006EVB42YO.

Sustainability Goals

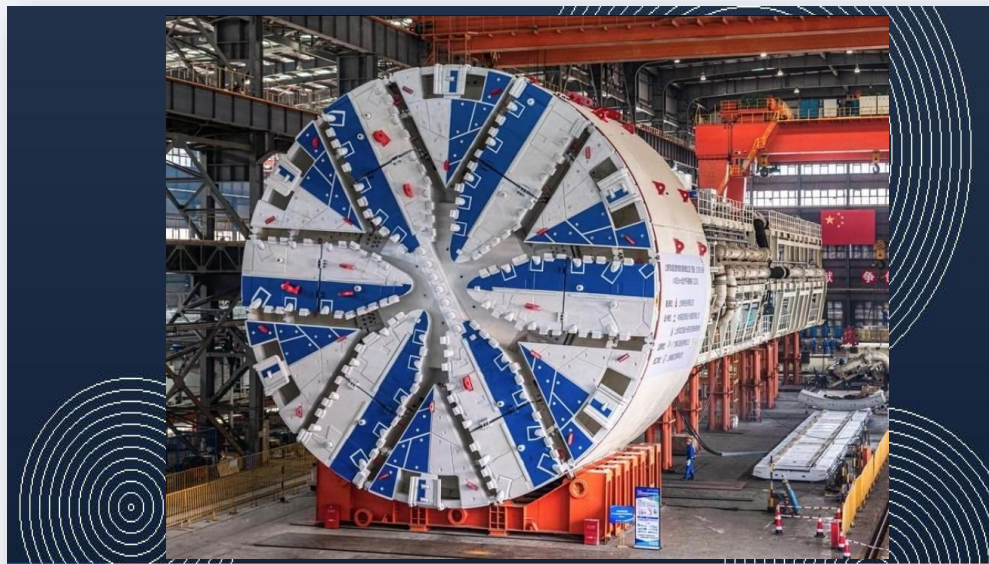

Programs aligned with renewable energy targets and the client's international development roadmap.

TUNNEL BORING MACHINE (TBM)

TUNNEL BORING MACHINE — EPC SUPPLY

PETRO SHORE TRADING L.L.C. is fully capable of procuring, financing, and delivering Tunnel Boring Machines (TBM) for large-scale underground infrastructure projects on an EPC / EPC+F basis.

Our global supply chain partnerships enable rapid sourcing of both hard-rock and soft-ground TBM systems, supporting tunneling for rail, metro, water conveyance, and utility corridor projects.

TUNNEL BORING MACHINE

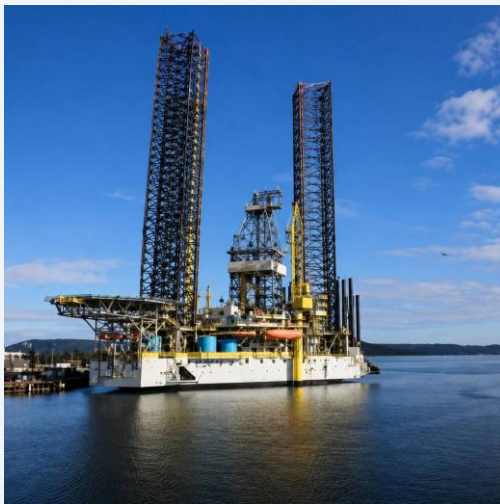

TBM Infrastructure — EPC Procurement

PETRO SHORE

OFFSHORE DRILLING RIG

CONTRACT & PROCUREMENT

PETRO SHORE provides EPC+F turn key procurement and delivery of offshore drilling units under flexible contract structures including EPCI, wet/dry tow, and integrated hook-up & commissioning. Contracts are structured with project-based financing arrangements in partnership and financial institutions.

HIGH-SPEED RAILWAY

HIGH-SPEED RAIL — EPC INFRASTRUCTURE

PETRO SHORE TRADING L.L.C. delivers integrated EPC and EPC+F solutions for high-speed railway infrastructure, covering civil works, track systems, electrification, signaling, and rolling stock.

Leveraging our strategic partnership with the Chinese and European reputable partners, we provide world-class rail engineering capability to governments and project developers globally.

Target Speed: 250 - 350 km/h

Delivery: EPC / EPC+F / BOT

HIGH-SPEED RAILWAY

Rail Infrastructure EPC Solutions

SOLAR POWER PLANT

SOLAR POWER PLANT

Photovoltaic — 5,000 MW Capacity

5,000

MW
Solar Capacity

Africa

Program Partner

PV Technology

EPC + EPC+F

PETRO SHORE delivers photovoltaic solar power plants under full EPC and EPC+F contract structures. Our 5,000 MW solar program spans utility-scale ground-mounted installations with full grid integration, SCADA systems, and O&M support packages.

WIND POWER PLANT

5,000

MW

Wind Capacity

Africa

Program Partner

Onshore / Offshore

EPC + EPC+F

WIND POWER PLANT

Wind Farm — 5,000 MW Capacity

PETRO SHORE delivers onshore and offshore wind farm developments under turn key EPC and EPC+F structures. Our 5,000 MW wind program covers site assessment, turbine supply, civil & electrical BoP, grid connection, and full commissioning with long-term O&M agreements.

WATER DESALINATION PLANT

DESALINATION PLANT

Water Treatment

DESALINATION — EPC SOLUTIONS

PETRO SHORE provides full turnkey EPC and EPC+F solutions for seawater and brackish water reverse osmosis (SWRO/BWRO) desalination plants.

Applications: Municipal water supply, industrial process water, oil field injection water, etc.

Delivery: EPC / EPC+F / BOOT

Integration: Renewable energy-powered RO systems and utility based systems available for off-grid and coastal installations.

DRILLING RIG

Onshore Rig — Display Yard

Onshore Rig — Active Deployment

5 UNITS UNDER CONTRACT

2000HP ONSHORE RIGS

WELL CONTROL EQUIPMENT — BOP SYSTEMS

Double Ram BOP
13-5/8" × 15,000 PSI

Single Ram BOP
13-5/8" × 15,000 PSI

Annular BOP
13-5/8" × 10,000 PSI

All BOP Systems Manufactured to API 16A Standards

WELLHEAD & CHRISTMAS TREE SECTION

Christmas Tree Assembly

Full high-pressure wellhead and Xmas tree sets for onshore fields — configured per well specifications.

ESP / SRP / PCP Pumps

Artificial Recovery Services covering design, manufacture, and installation of all pump types.

Production Support

Delivered in partnership with MARGA Energy under integrated services agreements.

API Certification

All production equipment supplied with full certification dossiers available on request.

CORE CAPABILITIES

Engineering & Studies

Feasibility, FEED, detailed engineering. Resident team at CCCC Xi'an Yard for drawing reviews and FAT.

Industrial Manufacturing

Onshore rigs 1000–1500HP. Two active Five-Set 2000HP rig programs with PWCE and CCCC.

EPC & EPC+F

Integrated turnkey delivery including project-based financing for complex, multi-discipline programs.

Technical Services

Consulting, integrated field development services, and artificial recovery service packages and IOR and EOR.

Renewable Energy

10,000 MW solar & wind in development under CCCC partnership framework.

HSE & Sustainability

HSE embedded as a core execution control across all project phases and international sites.

WHY PETRO SHORE

Global Presence

Active offices in China, UAE, Turkey, HONG KONG & Germany.

Integrated EPC+F

Engineering, procurement, construction AND financing under one roof.

On-Site Manufacturing

Resident team at CCCC Xi'an Yard — real-time QA and schedule control.

Technology & Innovation

Engineering platforms for optimized, field-proven designs.

Renewable Leadership

10,000 MW of solar & wind planned and under execution.

CCCC Strategic Partnership

- ✓ World-class technical & managerial capabilities
- ✓ International construction credentials
- ✓ Highways, ports, mining, industrial facilities
- ✓ Water systems and energy projects globally
- ✓ Direct coordination via Xi'an manufacturing yard
- ✓ Mega Infrastructure Projects Contractor
